

Northern Utah United

U5/U6 Lil' Kickers Program & U7/U8 Academy Program

Purpose - To facilitate a program for younger Boys and Girls who are looking for more competition and a greater challenge than can be provided through recreational programs. Currently, this program is restricted to players born in 2011 & 2012 for Academy and 2013 & 2014 for Lil' Kickers.

Lil' Kickers

Format - Organized according to the recommendations made by US Youth Soccer Association, US Soccer Federation, and the Utah Youth Soccer Association, and for the best player development, this program will be based on small sided training sessions. This format promotes players to have as many touches on the ball as possible, while learning both defensive and offensive tactics and skills.

Training sessions will be under the direction of our Academy Director, Toni Doney, who holds a national D coaching license and has had more than 15 years experience as a youth soccer coach and academy director. Training will include individual skill development, tactical training, and some goal keeper specialized training in preparation for our Academy program. Players will receive Practice t-shirts. Players participating in our Lil' Kickers program may also participate in our recreational program.

Academy

Format - Organized according to the recommendations made by US Youth Soccer Association, US Soccer Federation, and the Utah Youth Soccer Association, and for the best player development, this program will be small sided, with 4 players on the field at a time, and NO keeper. Team size should be between 4 - 6 players to guarantee that all players will receive plenty of game time. This format promotes players to have as many touches on the ball as possible, while learning both defensive and offensive tactics and skills.

Games will be three 15 minute periods, to allow for adequate instruction between periods, and field of play will be 25' x 35' with 4'x6' goals, again, according to USYS, USSF, and UYSA best practices for player development.

Registration/ tryouts - Teams may register as a whole for the Academy program. Teams may form through tryouts or by invitation, depending on the coach and or team, but tryouts may not begin until June 21st, 2018. Online Registration may begin on May 30th. Team Registration must be submitted by Friday, June 1st.

Academy Gaming League - Games will be organized through the NUU Challenger league, with a recommended 8 games per season, Fall and Spring. Teams will stay together from the Fall when they form through May of the following year. No referee will be provided, and coaches will be instrumental in calling fouls and instructing on the field during play. Teams any UYSA member organization may join the NUU Challenger Academy gaming league.

Space is limited to 5 teams of each U7 Boys, U8 Boys, U7 Girls, and U8 Girls, with additional teams being placed on a waiting list, and added if our resources will permit. Teams will be added to the gaming league in the order in which their team's registration is completed. Emphasis will be placed on participation, and not winning. Though Stats and scores will be kept, no awards will be given, as this is a developmental academy program and not a competition gaming league.

*The Challenger league will continue to allow U8 teams in it's regular non-academy program for this 2018/19 season, then will re-evaluate. **We highly recommend the Academy program for U8's, over the regular Challenger program which plays 7v7 with a keeper, as it is a much better format for player development. Additionally, U8 teams registering for the regular Challenger program may be combined with the U9's.***

NUU's Academy Program -Players may also register individually through NUU, and will be grouped together in teams, if there is room in the gaming league for additional teams. Individuals may register any time, as long as space is available.

NUU teams/ players will receive Practice t-shirts as well as regular year-round training sessions by our Academy Director, Toni Doney, who holds a national D coaching license and has had more than 15 years experience as a youth soccer coach and academy director. Training will include individual skill development, tactical training, and some goal keeper specialized training in preparation for U9 and older formats.
